	HIGH																						
Concrete architecture showing structure of code																							
Justify architecture																							
	HIGH																						
Implement code					_																		
Document code																							
Review work																							
State features not fully implemented																							
	HIGH																						
Summarise and justify testing methods																							
Brief report on tests																							
Provide URLs for testing material																							
	MEDIUM																						
Requirements																							
Methods																							
Risk assessment																							
User manual	LOW																						
Write up the user manual																							
Website	LOW																						
Update deliverables																							
Upload executable of game																							
Upload test plan and result																							
Upload user manual																							
Assessment 3 - Spr Week 7 Mon																							
Change report	MEDIUM																						
Summarise approach to change management																							
Justify any changes to documents																							
Implementation	HIGH																						
Implement documented code																							
Implementation of architecture and requirements																							
Website	LOW																						
Update deliverables																							
Upload executable of game																							
Upload test plan and result																							
Upload user manual																							
Assessment 4 - Sum Week 3 Wed																							
Evaluation and testing report	MEDIUM																						
Explain and justify teams approach																							
Commentation on met/unmet requirements																							
	HIGH																						
Implement documented code																							
Summarise software modification																							
Project review Report	LOW																						
Summarise approach to team management																							
Summarise software engineering methods
